STRENGTHS

- Practical problem-solving
- Client-focused communication
- Responsive design thinking
- Detail-focused delivery

PROFILE

UX-focused web designer building responsive, user-focused interfaces through Figma and front-end implementation. Brings real-client project experience, practical problem-solving and detail-focused delivery.

MY WEB EXPERIENCE

Mountainside Millwork | Client Website Design & Build

Angular | UI/UX | Web3Forms

- Designed and built a responsive multi-page website for a family-run millwork business, translating client goals into page structure, visual direction, portfolio presentation and a clear quote-request journey.
- Implemented an email-based inquiry form and completed desktop/mobile browser testing to support reliable client handoff.

Arcane Vault | E-Commerce UI Concept

Angular | SCSS | Bootstrap

- Designed and implemented a branded responsive storefront with a product-focused homepage, filtering/sorting controls, product detail views, newsletter signup and consistent admin dashboard styling.

BioGeek & PaidFlow | UX Process Case Studies

Figma | FigJam

- Translated user pain points into flows, low-fidelity wireframes and prototype concepts within a reusable Figma case-study system.

PROFESSIONAL EXPERIENCE

Carpenter | Mountainside Millwork

Mission, BC | Sep 2011 - Aug 2022

Delivered custom residential and commercial millwork while coordinating with clients and contractors around quality requirements and timelines.

Property Manager | Peakman Management Group

Calgary, AB | Jul 2009 - Sep 2011

Managed daily operations and stakeholder needs across multiple fitness facilities.

Drywall Taper | Peak Drywall Finishing

Mission, BC | Jan 2004 - Jul 2009

Completed quality-focused finishing work across commercial, residential and industrial projects.
